

New God

The Slapdash

Pathetic "majestics"
Infected perfection
Cosmetic genetics
Defected selections

"Laborate" with all, eyes sewn shut

Given all beauty
Taken for free
Molded to suit us
'Til nothings left be

New god
Self proclaimed
New god
Mankind

Synthetic domestics
Defected reflection
"Rhetoric-choholics"
Demented equation

Laborate with all, eyes sewn shut

Evolved through madness
"Humaniac" spawn greed
Slap-dash "extingt-ence"
Deconstructed new breed

New god
Self proclaimed deities
Ignorance is bliss
Manipulate all that is
Betray creation
With a Judas kiss

I'd rather be nothing
Than a part of
This fucked up behavior
