We've been begging for a better place Frantically shaking in disgrace We're all viciously fighting in every state But now I'm leaving

We're all begging for a different way Violently shaking from our mistakes Still nobody's fighting to make a change So now I'm leaving

Time's almost up I know We're all running faster Running faster

We've been begging for a better place Frantically shaking in disgrace We're all viciously fighting in every state But now I'm leaving

We're all begging for a different way
Violently shaking from our mistakes
Still nobody's fighting to make a change
So now I'm leaving
Falling back
Falling back without a hold
Ashamed to say we're falling back
Falling back without a hold

Time's almost up
I know
Begging
Shaking
Fighting
Leaving
