Rain Falls For Wind

The Sleepy Jackson

I've been drinking
And I've been thinking of you
Now I know
I know the snow will let me know

I've been trying
But I've been lying to you
Now I know
I know the time will get me through

But any time I let you know It's just a time to let me know What it's all about

Rain falls for wind You're only, ever on my mind Rain falls for wind You're only, ever on my mind

I've been drinking
And I've been thinking of you
Now I know
I know will let me know

Rain falls for wind You're only, ever on my mind Rain falls for wind You're only, ever on my mind

Rain falls for wind You're only, ever on my mind You never ever have the time When I see you smile

Rain falls for wind You're only ever on my mind You never ever have the time When I see you smile
