

Maria Elena

The Smithereens

Little girl, little one
He gave his heart to you
In this world you'll never know
A love that is more true

I will all my days
That's how it's got to be
I believe in true love ways
Maria Elena

Little girl, now don't you cry
You'll meet again someday
Why he left, still wonder why
There's nothing left to say

I will love you all my days
You're still a part of me
I believe in true love ways
Maria Elena

Our love will live on through eternity
In your life you'll never find
Another man who means as much to you as he does

I will love you all my days
That's how it's got to be
I believe in true love ways
Maria Elena

Little girl, little one
He gave his heart to you
In this world you'll never know
A love that is more true
