

Burial Bridge

The Sorrow

I never feel and never felt the safeness
All on my own
Always searching for someone to understand
Can't escape my fate

I never thought that my road
Would lead me to despare
My perdition
And when I reach for your hand
Will you follow me into the deep?

I saved my last breath for you
To see you live
We'll never wake up again
Two strangers are hand in hand
But we descend
We'll never wake up again

In darkest days I tried to find you
And in the end I found you
I found someone sharing the same needs as me
For the first time and for the last time

Heart to heart they will descend
Two strangers hand in hand
To sacrifice their lives

And when I reach for your hand
Will you follow me into the deep?

I saved my last breath for you
To see you live
We'll never wake up again
Two strangers are hand in hand
But we descend
We'll never wake up again

And when I reach for your hand
Will you follow me into the deep?

I saved my last breath for you
We'll never wake up again
Two strangers are hand in hand
We'll never wake up again
