

Eyes Of Darkness

The Sorrow

The best friend
For long, long time
I look at you
Standing in the pouring rain
You disappear while I'm away

This is for the love,
Grace and loyalty
Eyes of darkness

Dying for all the love you've given
Crying without you I am torn inside

I mourn in deepest black
Which god will tear us apart
No heart as big as yours
In death you dare a new start

I miss the times
We used to share
Look down on me
Walking on this lifeless soil
I'm in despair while you're away
