

The Escape

The Sorrow

Retrace my steps
From where you lost me
Hold the torch up high

It's your obligation to meet where I'm at
You will find salvations to date a life in lose

Search and erase me
Out of your memories
Just go on replace me
Step out of your misery
(Escape your misery)
Untie my hands
Free me from these chains
Hold the key up high

You will feel a new heartbeat
You will breathe in new life
You will forget me tomorrow
You will start again

Embrace my denial
I feel the darkness
Of your withered soul

Search and erase me
Out of your memories
Just go on replace me
Step out of your misery
(Escape your misery)
Untie my hands
Free me from these chains
Hold the key up high

Step out of your misery
Escape your misery
