

# You Are My Nemesis

## The Sorrow

We were meant to last until eternity  
(Now) I rest my heart in sorrow  
You are my nemesis

See my face in the mirror  
I don't like what I see  
Only broken reflections  
Why did I lie, why did I fail

Why did I lie, why did I fail

Mourning! Never again, never again  
I hope that we'll find an end, we'll find an end  
Looking for solacing hands a warm touch in the cold  
I pray to be safe! and sound in the end

Love turned black  
Left me dead  
From your poisoned lips I drank wine of denial  
Your kiss blurs my senses  
You are my addiction!

All alone in self-pity  
You are all that I've lost  
In a sea of devotion  
Out of your heart into the dust

Out of your heart, into the dust

Mourning! Never again, never again  
I hope! that we'll find an end, we'll find an end  
Looking for solacing hands a warm touch in the cold  
I pray to be safe! and sound in the end

Will I be relieved from sorrow?  
Will I be relieved?

Just give (me) back my heart!  
Before it bleeds to death!

When will I be freed from your spell?  
From your spell

These tears will run continuous!  
Your kiss will hurt forever!
