

## All Fall Down

### The Sound

The simple notions  
Of this damned nation  
There's words on the page still  
But where's all the rage gone?  
All fall down, all fall down

Dance in the streets  
Sing ring-a-ring-a-roses  
Their disease is complete  
With a pocket full of poses  
All fall down, all fall down

Pack of cards, den of thieves  
Safe as houses until the breeze  
Just watch it all fall down  
Just watch it all fall down

Don't turn the clock back  
Break its hands off  
Two minutes to midnight  
Are you ready to collapse?  
Ready to all fall down
