Walking

The Soundlovers

Walking on the street I think about your dream No matter what you said 'Cause everything I want Is just to live today

Don't tell me what is right Don't tell me what is wrong Open your wings and fly And stand here by my side But let me live this love

Walking on the sun take me there I wanna hear your voice in the air Let me see your hands when you dance Let me hear your song all night long

Walking on this land till the end I wanna hear your voice through the sand Let me see you hands when you dance Let me hear your song all night long
