

4 Songs & a Fight

The Sounds

It all happened so fast that night
As I remember it there was a fight
It all went black and the race was on
Behind the closed door there's no light
And I will tell you it felt so right

Everybody knows when it's on, here we go!
Laugh all you want but it's totally outlawed
there's no control of its own
Go! Go!

It all happened so fast last night
The way we lived we felt so alive
I saw a flash in the corner of my eye
Behind the closed door there's no light
Yeah it was only 4 songs & a fight

Everybody knows when it's on, here we go!
Laugh all you want but it's totally outlawed
there's no control of its own
Go! Go!

The beginning of the end, that is your home
Don't spread your disease when you come to my town
we're killing off a lonely son

Trying to remember it, slow
Was I really part of it? No!
Forgive and not be crucified by you

(2x):

The beginning of the end, that is your home
Don't spread your disease when you come to my town
There's no control of its own
No no control of its own
Go! Go!
