

## Love Song

The Soviettes

Well, the girl like her likes him  
I think she's thinking that the boy like him likes her, but she  
's just wishing  
Because the boy like him likes him and now they're leaving  
So the girl like her's, like, left and now she's thinking "my l  
ife is over!"  
But now a girl likes her, and like her she was thinking  
That the boy that liked her-and now he's leaving  
But if the girl like her likes her it could start looking like  
the girl and her would go  
And now she's thinking "This isn't over"
