

A Little Bit Me, A Little Bit You

The Specials

Walk out,
Girl don't you walk out
We've got things to say
Talked out, let's have it talked out
Things will be okay

Girl
I don't want to find
That I'm a little bit wrong
And you're a little bit right
I said girl
You know that it's true
It's a little bit me, (a little bit me)
And it's a little bit you... too

Don't know... just what I said wrong
But girl I apologize
Don't go... here's where you belong
So wipe the tears from your eyes

Girl
I don't want to find
That I'm a little bit wrong
And you're a little bit right
I said girl
You know that it's true
It's a little bit me
And it's a little bit you... too

Oh girl
I don't want to find
I'm a little bit wrong
And you're a little bit right
I said girl
You know that it's true
It's a little bit me
And it's a little bit you... to

It's a little bit me
It's a little bit you
Girl don't go
no no no no no
Girl don't go
no no no no no
Hey girl
