

# Keep On Learning

## The Specials

A prostitute to your art  
In debt before you start  
You've made your bed, don't lose your head  
Be careful of the sharks

Believe in what you're told  
You're worth your weight in gold  
Here comes the catch, you're on their patch  
Twice over you've been sold

It's a long long road could you get back home  
Old bridges you are burning  
There's time to kill when you pay the bill  
'Cos boys must keep on learning

Keep on learning, got to keep on learning  
Keep on learning else your fingers get burned

Two years you were the star  
Pretty girls and fancy cars  
Now moneys gone, she won't hold on  
No free beer at the bar

Working for 'Burke & Hare'  
It's a business that doesn't care  
You've made your bed, don't lose your head  
Who said that life was fair?

It's a long long road could you get back home  
Old bridges you are burning  
There's time to kill when you pay the bill  
'Cos boys must keep on learning

Keep on learning, got to keep on learning  
Keep on learning else your fingers get burned
