

## Mistakes

The Spencer Davis Group

People tell me, boy you're crazy  
Some people say that I'm nuts  
For trying to get back together with you baby  
They say that once is enough

I should never have left you 'cause now I need you  
Sometimes it happens that way  
I come back like a fool who's believing  
No matter what they might say

I don't want to hear another word  
Don't need your well thought out advice  
Though I thank you all for being kind  
I can make mistakes myself just fine

I've got a good friend who knows my trouble  
he thinks I'm wasting my time  
He said go out and have some fun she's not the only one  
But I can't leave her behind

So, I don't want to hear another word  
Don't need your well thought out advice  
Though I thank you all for being kind  
I can make mistakes myself just fine
