

Mistakes

The Spencer Davis Group

People tell me, boy you're crazy
Some people say that I'm nuts
For trying to get back together with you baby
They say that once is enough

I should never have left you 'cause now I need you
Sometimes it happens that way
I come back like a fool who's believing
No matter what they might say

I don't want to hear another word
Don't need your well thought out advice
Though I thank you all for being kind
I can make mistakes myself just fine

I've got a good friend who knows my trouble
he thinks I'm wasting my time
He said go out and have some fun she's not the only one
But I can't leave her behind

So, I don't want to hear another word
Don't need your well thought out advice
Though I thank you all for being kind
I can make mistakes myself just fine
