

## Please Do Something

The Spencer Davis Group

Girl, you got me where you want me now  
Now what you gonna do?  
I'd work eight days a week, girl  
If you want me too, now

Baby, please do something, you must do something  
Child, you got to do something, do something for me  
Oh, you made me love you, girl  
But you put me on the shelf  
You keep me so upset  
You got me talking to myself

Baby, please do something, you must do something  
Child, you got to do something, do something for me  
Something like holding me tight  
Something like treating me right  
Something like squeezing me with all of your might  
You got me where you want me now  
Now whatcha gonna do?  
I'll work eight days a week, girl  
If you want me tonight

Baby, please do something, you must do something  
Child, you got to do something, do something for me
