

# How Could I Let You Get Away

The Spinners

Like Howdy Do  
Your tin soldiers your clowns too  
They're all laughing at you,  
I'm laughing at you too  
Like basket ball, five fouls and that was all  
The games you really knew yeah, why could I beat you  
In the middle of the room got no time to  
Count may sheep today

How could I let get away  
When I knew I'd need somebody soon  
How could I let you get away  
When I knew I'd need somebody soon

Like mother goose  
Winds you up the turns your lose  
Block 10 was beatin' two  
And I can't tell green from blue no no  
Like cat and mouse games of chase instead of house  
I'd get so mad at you  
Like parents often do  
In the middle of the room  
Got not time to  
Count my sheep today baby

How could let you get away  
When I knew I'd need somebody soon  
Oooh hooo (how could I lets you get away) baby  
When I knew I need somebody soon

Oooh baby (how could I let you get away) how could let you get away baby  
When I knew I need somebody soon yeah  
Hey baby I didn't count my sheep I let my woman weep baby  
I knew down inside I needed someone soon  
Like Mother Goose I done let you lose  
And I need you baby yeah  
Ooh wee I need somebody soon  
Help me now to keep my feet on the ground
