Direct To Helmet

The Spinto Band

Directly to my helmet, directly to my heart
Directly to my hairline, where do I start?
ItD's not like art is just value, just try not to argue

Your work looks good, your look works great
How can I state the point of view you create
It'Ds not too late to resolve it and if I can't solve it

I \square 'll look at the object and that's what I'll call it How can I respect the opinions of none? Directly enhancing the sum

Directly to my helmet, indirectly to my soul

If I said, I loved it, oh, cheese ball ID'm not that tall

So, the impact was more than deserving

The plastic champagne was the least of unnerving

How can I respect the opinions of none? Directly enhancing the sum Above all, work songs
I'Oll tell you it never gets old
IO'll tell you it never gets old
