Where We Never Shall Die

The Stanley Brothers

Sinner why not heed the day won't you come and go this way Where Jesus lives and we'll never say goodbye To a home that's far and bright and there never is a night In a land where we never shall die

I've a home way up on high where we shall live and never die Won't you come and cross this river so wide There with Jesus we will dwell never more to say farewell In a land where we never shall die

Walk the straight the narrow way fall down on your knees and pr ay God will help you cross the mountaintop so high He will take you by the hand lead you to that promised land In a land where we never shall die
