

Who Will Call You Sweetheart

The Stanley Brothers

Now who will kiss your lips darlin'?
Who will call you sweetheart?
Oh, who will tell you they love you?
Oh, you once was my little sweetheart

Now who's been talkin' to you
Somebody's been tellin' you wrong
Things about me that you shouldn't believe
I'll miss you sweetheart when you're gone

Now who will kiss your lips darlin'?
Who will call you sweetheart?
Oh, who will tell you they love you?
Oh, you once was my little sweetheart

This talk that's goin' 'round town
Some love it, I know it's not true
'Bout the things that I've done and the places I've been
For darlin' I've always loved you

Now who will kiss your lips darlin'?
Who will call you sweetheart?
Oh, who will tell you they love you?
Oh, you once was my little sweetheart
