Dream On

The Statler Brothers

I'm wore out from apologizing sick and tired of compromising
The next word that you hear will be goodbye
I've had enough of talkin' bout it I might be sorry bit I doubt
it

If you think I'll sit home each night and cry

Dream on dream on dream on You think everything will be roses on your own And life will get better when you're all alone Dream on dream on honey dream on When the preacher comes by to console you I don't mean to say I told you

But you'll shade it to make me look unfair
Then you'll lie outright to all the neighbors and tell you sist
er that I hate her

When all is said and done if you think I care

Dream on dream on dream on If some night in your sleep someone loves you tenderly And when you wake up in the morning you've dreamed that it was me

Dream on dream on honey dream on

If you have a crazy thought sometime Miss me and think maybe I' $\ensuremath{\mathtt{m}}$

Somewhere all alone and missing you Dream on dream on dream on honey dream on Dream on dream on honey dream on

Dream on dream on dream on honey dream on Dream on dream on dream on honey dream on
