

## I Wish I Could Be

The Statler Brothers

I wish I could be in Knoxville tonight so I wouldn't worry if you were all right  
And you wouldn't wonder where I spent the night  
If I could only be in Knoxville tonight  
I wish I could be in St Paul today and watch you get dressed and ready for your day  
And tell you some things I know you've been told  
If I could get the St Paul before it gets cold  
I wish I could sleep tonight in Little Rock  
But then we never did go too much by the clock  
But I don't remember here and you ever complain  
I'd sleep tonight in Little Rock if I could fly a plane  
I'd give everything I have if things had just begun  
You were lying there in North Carolina sun  
Every thing we had was still yet to be Carolina you sure does the best of me
