

If We Never Had

The Statler Brothers

If we took just a little more than we should have taken
If by chance we let something good go bad
If we sorta made a mess out of what we have together
Still it's better than if we never had
If we said too many things that should have been unspoken
If we spent too much time making one another sad
If we both doubt tomorrow and never see each other
Still it's better than if we never had
If we spent too little time being happy if we spent too much ti
me being mad
If we loved a little harder without a little tryin'
Still it's better than if we never had
[dobro - guitar]
If we spent too little time...
It's better than if we never had
