

# Heaven Sent

The SteelDrivers

## Chorus

I know our days are heaven sent  
Lord knows I know not where they went  
shake my head and I wonder how  
I'll ever get to heaven now

An angel came one winter dawn  
you shoulda seen what she had on  
wind was whistlin' like its rain  
she left again just like she came

I'll ever get to heaven now

I move around a lot these days  
honky tonks and broad freeways  
the same thing that I've always done  
but I'm older now and I get tired some

Lord knows I know not where they went  
Shake my head and I wonder how  
I'll ever get to heaven now

Those who think they hold the cards  
I send out my kind regards  
Those who love to who care  
I'll meet you down the road somewhere
