

Animals + Insects

The Stills

I stumble out of a night club thinking,
"Animals and insects don't do drugs."
I think I'll go out and act like I'm celibate
Jingle bells and a Christmas choir

I softly kick a dog in the teeth
But he can't beat me down
Blood streaming from the palms of my feet
I'll bring the heavens down screaming with me

Oh my God...
I'll shake my cutie pie fist at a waitress
When I'm sick of the way that I've been
I think I'll go out and act like I'm celibate
Throw grenades at a Christmas choir

Oh my God
