

## Let's Roll

## The Stills

Lie on the floor of the runway, baby  
Wait for the ride; we'll have a comfortable flight

Don't be afraid, to be afraid here with me  
And plunge, me toward into the wormhole with me

Let's roll...  
South to the sea, I got a sailboat for free  
Yes, little one, we'll sail as soon as we hitch out to sea

Don't be afraid, of the roaming alligators  
And save the heart attacks for later

Let's roll...  
North, to the French, I know a bar there that's in  
Out of the way, in a Hades kind of way  
But I'm not afraid, as long as you're here with me

Let's roll
