Lie on the floor of the runway, baby Wait for the ride; we'll have a comfortable flight

Don't be afraid, to be afraid here with me And plunge, me toward into the wormhole with me

Let's roll...

South to the sea, I got a sailboat for free Yes, little one, we'll sail as soon as we hitch out to sea

Don't be afraid, of the roaming alligators And save the heart attacks for later

Let's roll...

North, to the French, I know a bar there that's in Out of the way, in a Hades kind of way
But I'm not afraid, as long as you're here with me

Let's roll
