

# Lola Stars And Stripes

## The Stills

We all need to feel secure and so middle-class  
But I'm still waiting for next week's chemical blast  
Don't go feelin' insecure, no feelin' sad  
With an M-16, you'll feel the surge of you're American past

But are you afraid, you always said the world will never last  
And Lola I'm not afraid, if you star-wipe all your past away  
And the sun comes one more day

Lola, Lola,  
Will the world end? Me and you  
Lola, Lola,  
No we're never going to make it through

Can you take me back to that place where stars glow?  
Comets swarm like fireflies outside your window

But are you afraid, you always said the world will never last  
And Lola I'm not afraid, if you star-wipe all your past away  
And the sun comes one more day

Lola, Lola,  
Will the world end? Me and you  
Lola, Lola,  
No we're never going to make it through
