

## Ready For It

### The Stills

I'll see you in a second, a dirty little minute  
That was an hour ago, don't censor me  
So picture me, there's no change the sun goes down

I'm ready for it...  
Days seem to pass, crowds move too fast  
About an hour ago, we hit a tree  
We bruised your knee, keep on saying you love me

I'm ready for it... Loving me is a black hole
