

Rooibos / Palm Wine Drinkard

The Stills

What is this influence I am under
Fireworks erupting and thunder
I see the sky
Clouding over
Wild acid peaking
It spreads
Like a flood

Meteors
Shower
The earth here
A war
Down the rivers of blood
Where the junk rolls
Graffiti
I glow in the dark
So you see me
I ache and I swing
I brought all I can bring
I want everyone
To know

I held my body underwater
Never struggled
Floating weightless
And I drifted
Into madness
Filled with visions
From a terrible past
The most polluted city
In the world
That turns everything
To gold
