

# Dirty Deal

The Stooges

Met a creep who gets things done  
He told me I'm the number one  
He knew I was innocent  
I knew he was fucking bent  
He embraced me like a friend  
Showed me all his monuments  
I was impressed, what the hell,  
Where I come from ain't much to tell.

Stealing all the way I feel  
As I signed the dirty deal.

System's rigged to favor crooks,  
You don't find that in civic books  
It's not cool to ask a man  
To sign what he don't understand.  
Guys found other guys were right  
Contract's starting, then the night  
And when truth is violent  
They'll hand you on a chain link fence.

Once you're in there's no appeal  
You signed the dirty deal.

Beware, beware!  
Dirty, it's dirty.

Once you're in there's no appeal  
You signed the dirty deal.

Beware, beware!

Listen!  
Let the lame old story down people  
I was a dummy, not a clown, people.  
I'm getting hard to be around people.

Warning, warning, beware, beware!

Welcome to the real world  
Where trouble loves a pretty girl  
Your compound interest drifted, scum  
Bite your blood into it runs  
Simple people praise the lord  
Smarter people steal and hoard  
If I was the president  
I couldn't change their evil plans.

Stealing all the way I feel  
'Cause I signed the dirty deal.

Dirty, it's dirty,  
It's dirty, it's dirty out there.

The way I feel is I signed the dirty deal  
Beware, beware.  
Dirty deal, dirty deal.
