

Little Doll

The Stooges

The little doll I can't forget
Smoking on a cigarette
In my life a real queen
Prettiest thing I ever seen, uh huh

You're the one who makes me sing
Bring happiness in everything
You're the only real one
A real way to have some fun, uh huh

But I don't know you little doll
But I don't know you little doll
Come on shake, come on shake
Come on shake you little doll

Shake you little doll
Come on shake, come on shake
Come on shake you little doll
