

## Little Doll

The Stooges

The little doll I can't forget  
Smoking on a cigarette  
In my life a real queen  
Prettiest thing I ever seen, uh huh

You're the one who makes me sing  
Bring happiness in everything  
You're the only real one  
A real way to have some fun, uh huh

But I don't know you little doll  
But I don't know you little doll  
Come on shake, come on shake  
Come on shake you little doll

Shake you little doll  
Come on shake, come on shake  
Come on shake you little doll
