

# She Took My Money

The Stooges

Well I never fell for power tricks?  
Or the pussy with disease.  
I never spent time in a uniform.  
I never loved the human being.  
I thought I never see defeat,  
Then I saw her walkin' down the street.

She took my money.  
She took my money.  
She took my money.  
She took my money.  
She took my money and she didn't say thank you, no!  
She took all my money and immediately banked it.  
Ooh, my my...

I got to testify.

Now she owns a diamond mine.  
She sets her watch on Paris time.  
I'm livin' in a friend's backyard,  
Starvin' like an unsung bard.  
The moral of the story is:  
you can beat the system,  
but you can't beat the Ms.

She took my money.  
She took my money.  
She took my money.  
She took my money.  
She took all my money.  
And she didn't say thank you.  
She took my money and immediately banked it.  
Ooh, my my.

She took all my money.  
She took my money.  
She took my money.  
She took my money.  
She took my money.  
Alright.

I gotta, I gotta, I gotta protect my money. I gotta, I gotta, I gotta protect my money.  
I gotta, I gotta, I gotta protect my money. I gotta, I gotta, I gotta protect my money.  
I gotta, I gotta, I gotta.

She took all my money, baby, baby, baby, baby.  
She took all my money, baby, baby, baby, baby.  
She took all my money, baby, baby, baby, baby.

She took my money.  
She took my money.  
She took my money.  
She took my money.
