

# Rain

## The Strange Familiar

You are the heart that beats inside of me  
You are the words I long to find  
You are the peace that gives me easy sleep  
You are the reason I don't mind

Waking up to another day  
Facing monsters I cannot slay  
Playing the hero who can't feel pain  
When I'm in the desert, you are the rain

You are the future that's worth fighting for  
You are the song I long to write  
You are the truth that keeps me wanting more  
You changed my heart, you changed my mind

I'm waking up to another day  
Facing monsters I cannot slay  
Playing the hero who can't feel pain  
When I'm in the desert, you are the rain  
You are the rain  
You are the rain  
You are the rain  
You are the rain

I've made a lot of mistakes and I know that I'll make more  
But I'd give, I will give you all that I've got  
Even if I'm poor  
I wanna show you the world, one step at the time  
And the ground to cover, you're my earth-less sky  
I'm feeling overwhelmed  
It's so much to say  
Trying to leave my example  
And show you the way  
Life is hard  
But you make it simple  
You need to have faith and believe in a miracle

I'm waking up to another day  
Facing monsters I cannot slay  
Playing the hero who can't feel pain  
When I'm in the desert, you are the rain  
You are the rain  
You are the rain  
You are the rain  
You are the rain
