

Walk out to the edge and you stand there  
Looking down at the water way below  
You know if you wait too long  
You'll never find the nerve  
And every second that you wait just makes it  
Harder harder harder yeah

Farther farther farther along  
Farther farther farther along  
Farther moving farther along

Remember the first time we walked by  
All I wanted to do was catch your eye  
Sometimes if you wait too long  
You'll never find the one  
That'll be right there when times get harder harder harder yeah

Farther farther farther along  
Farther farther farther along  
Farther moving farther along

Now you feel like you're living  
And you're breaking down those walls  
Really feel like you're giving  
It's not a lost cause

Sometimes you have to dare yourself  
To make it good for someone else  
Sometimes you wait too long and never find the words  
That can light you up when times get  
Harder harder harder yeah

Farther farther farther along  
Farther farther farther along  
Farther moving farther along  
Farther along  
Farther along
