Good morning day, how do you do?

I wonder, what will you do for me?

I should be on my way, I should be earning pay

I should be all the things that I'm not

And I've tried on my own, now there's nothing to keep me at hom e

Like my brother has too, gotta leave to get out of this view You see, they tell you to move around
If you can't find work in your own town

As I rise from my bed, I can hear the old man Blaming heaven and Mother for this 30 Years with one firm, 13 months redundant Yes, I'd say, that's unlucky for some

Now our tears fall like rain, as my mother walks me to my train With a kiss and a wave, "Come home weekends" that's if I can sa ve

I swear, I'll take it out on the man Who ever devised this economy plan

All the love in the world Can't put dinner on the table All the hate that I feel No love could put right

Good morning day, how do you do?

I wonder, what will you do for me?

I should be on my way, I should be earning pay

I should be all the things that I'm not

And I've tried on my own, now there's nothing to keep me at hom e

All the love and the strength has been taken by this government You see they tell you to move around If you can't find work in your own town

Father's in the kitchen, counting out coins
Mother's in the bedroom, looking through pictures of her boys
One is in London looking for a job
The other's in Whitehall, looking for those responsible
