

Ivaloo one day they'll name this street after you  
Eyes wide as the moon  
Your smile so far away, beautiful fool  
I'll lose my heart to you

I saw you riding round the reservoir  
The sidewalk slows as you pass by  
Somewhere on India near the boulevard  
You stole my heart that day

Ivaloo how could I ever keep up with you  
In the afternoon won't you find your way to the  
Place we once knew  
Don't give this up too soon

You'll bring your overhead projector  
To demonstrate where we'd go wrong  
You'll chart our every flaw  
Shone ten times tall on the bedroom wall  
But if you'd love me we could erase it all  
Well maybe without me you'd be better off  
But if you say you love me  
I should know better by now

In the afternoon I hope you find your way  
Guess I always knew you'd be leaving soon  
Ivaloo one day they'll name this street after you  
My beautiful fool

Your eyes bright as the moon  
Light up my room  
How I hate to see you go
