

The Wake Up Song

The Submarines

I'm missing out
I've been completely shut down
And while awake submerged
I'm missing out
I've been completely shut down
And while awake submerged
I flow through this feeling

Like chairmen Mao's
Wake up song
The words from you ring on and on
I want to just hold you

I cant explain
This feeling treats me so strange
But where are you these days?
I need you near me

We're Moments away, Moments away
From making up again hey hey
Moments away
Just seconds too late

Seconds away, Seconds away
We're leaving the house just for the day
Seconds away, Seconds away
All this just to go out for the day

I'm missing out
I've been completely shut down
When we're at home
It seems your nowhere near me

We try our best
It's our big test
Your looking east
And I'm lost out west
Cant you hear me?

We're Moments away, Moments away
Lets burn the house and run away
Moments away
Just seconds too late

Seconds away, Seconds away
We're leaving the house just for the day
Seconds away, Seconds away
All this just to go out for the day

Moments away, Moments away
We're leaving the house just for the day
Moments away, Moments away
I wouldn't have it any other way
