## The Subways

The world is always some kind of daydream Another message that they just don't see I won't forget the day you said The simple things they are the best I'm just a kid, an alien among the people

The girls and boys

The girls and boys

Another statement, another daydream
Why do you always say what you don't mean?
I won't forget the day you said
The simple things they are the best
I'm just a kid, an alien among the people

The girls and boys The girls and boys The girls and boys

The girls and boys The girls and boys The girls and boys Yeah, yeah
