

Good Times

The Subways

I wanna live and never die
I'm never giving up the fight
I wanna sing I wanna breathe

I wanna touch I wanna taste
Wanna be real and never fake
I wanna see not just believe

Though I've been feeling really down
Better days are coming around

And when I wake up in the morning
Yeah when the sun shines bright
The sun shines bright
I wanna feel the day is calling
I wanna see the good times
The good times

I wanna run and jump right in
Feel like doing anything
So what am I gonna do now
Touchy touchy la la la
Pins and needles on my arms
Making something of it somehow

Though I've been feeling really down
Better days are coming around

And when I wake up in the morning
Yeah when the sun shines bright
The sun shines bright
I wanna feel the day is calling
I wanna see the good times
The good times

I wanna live and never die
I'm never giving up the fight
I wanna sing I wanna breathe

I wanna touch I wanna taste
Wanna be real and never fake
I wanna see not just believe

Though I've been feeling really down
Better days are coming around

And when I wake up in the morning
Yeah when the sun shines bright
The sun shines bright
I wanna feel the day is calling
I wanna see the good times

And when I wake up in the morning
Yeah when the sun shines bright
The sun shines bright
I wanna feel the day is calling
I wanna see the good times

The good times
