

## Holiday

## The Subways

I think is time that I went on a holiday  
I think it's time that my mind should take away  
I take the things that my friends say I should take  
I think it's time that I went on a holiday  
I know that you will be the one  
You'll lead me right into the sun  
I run away, run away far from you  
I run away, run away far from you

I think it's time that I went on a holiday  
I listen to the people who try to fake  
They all say that they need a holiday  
I think it's time that I went on a holiday

I know that you will be the one  
You'll lead me right into the sun  
I run away, run away far from you  
I run away, run away far from you
