## **Popdeath**

## The Subways

As you scrub away the halo As you listen to the radio Its always gonna be the same way We're all hoping for a fadeaway Can we bare to look now As we see them fall down

And we can wait up all night But nothings gonna change Its just another pop death Its on the TV all the time This is how we change Its just another popdeath

When I'm staring at the TV Its like I'm looking at a memory Its always gonna be the same way We're all hoping for a fadeaway Can we bare to look now As we see them fall down

And we can wait up all night But nothings gonna change Its just another popdeath Its on the TV all the time And this is how we change Its just another popdeath And we can wait up all night Nothings gonna change Its just another popdeath Its on the TV all the time And this is how we change Its just another popdeath

And you can care if you really want Sing their songs when they're dead and gone You can bleed for their tortured souls Too much sex and rock n roll

And we can wait up all night Nothings gonna change Its just another popdeath Its on the TV all the time And this is how we change Its just another popdeath And we can wait up all night Nothings gonna change Its just another popdeath Its on the TV all the time And this is how we change Its just another popdeath Its just another popdeath Its just another popdeath Its just another popdeath Its just another popdeath
