

## Ddt

## The Suicide Machines

Destroy the world without a thought  
Destroy our lives with your bug bombs  
In our food and in our blood  
Chemical death to the corporate slut

Pollute the earth with pesticides like ddt  
Money, power, profit,  
Gain is all you CAN SEE  
Everyone pays when we take that route  
Dirty water, overcrowded  
It's time to take a time out

Keep your head  
Use your voice  
Speak your mind  
You've got a choice

If no one cares  
Then nothing gets done  
If no one speaks  
What's done is done

Pollute the earth with pesticides like ddt  
Money, power, profit,  
Gain is all you CAN SEE  
Everyone pays when we take that route  
Dirty water, overcrowded  
It's time to take a time out

Destroy our world!  
Destroy our world!  
Destroy our world!  
Destroy our world!

Destroy our world!  
Destroy our world!  
Destroy our world!  
We destroy our world!!
