Invisible Government

The Suicide Machines

Do you know the world is run by big corporations
don't be a fool don't take a part in the ignorance
that's sweeping the nation don't let rich men make
the rules will you

Bow down to the invisible government fuck
that they're capitalist scum
Behind the scenes things get done that you an I
could never believe atop the world they're pulling
strings a puppet I'll never be used to satisfy their
greed I won't

Capitalist scum Fuck Off!
