

Didn't I express my regrets about the  
way things are and I think I might not be taken  
this too far this time I hope that you can  
understand this time I hope that you can see it  
Didn't I tell you everything about me  
didn't I show you can you feel it got  
so many thoughts and words inside my  
head inside my head  
Didn't I do enough to make you feel so  
sad and you know I'm sorry about the  
fights we had so long I'm sorry everything  
went wrong goodbye you'll never have to see me

Didn't i tell you we'd never last  
forever cuz we change our minds like changes  
in the weather now it's all over even  
though we've come so far we've come so far

Everything went wrong emotional feed back  
we're so confused everything's gone so wrong  
with my heart in my throat I know it's time t  
to grow up  
I know that you and I would never last and  
all this time it went by much to fast I never  
listened to a word they said remember  
me and don't cry cuz
