

One More Time

The Suicide Machines

One more time Somebodies gotta kill
one more time Is time standing
One more time Another suicide
One more time Another kid has died

And one more time I think
I'm losing my mind
One more time Another broken home
One more time A cold heart of stone
One more time Are children born to die
One more time Is it any wonder why

Can you tell me why this is they're just kids
One more time A child's been abused
One more time Power's always misused
One more time A cry that goes unheard
One more time I can only think the worst
