

Our Time

The Suicide Machines

I got no time!
I got no time!
How can it end when it never began?
Why can't I win when I know I can?
Seems that we've forgotten about the mess we're in
Which way do we go, and was there ever a plan?
Seems I'm getting old ya see and I can't avoid responsibility
Stuck in a box of popular belief and it feels like somethings w
rong with me!

Got no! Got no time for myself [Repeat x4]
Do we have a function?
Tell me is there something
Is this my assumption?
Tell me is there something
Life is nothing but consumption
Tell me is there something there! Oh yeah!
I got no time!
How can we help when we don't know where to begin?
Fighting the system, yet you got sucked in
You dropped out of the race, 'cause you never fit in
It's a racist power structure, do we call it human?
Seems I'm getting old ya see and I can't avoid responsibility
Stuck in a box of popular belief and it feels like somethings w
rong with me!
I've seen through all the years and through all the tears
I've seen my share, it makes me feel likeÂ;Â
No one even cares
I've seen through all the years and through all the tears
I've seen my share, it makes me feel likeÂ;Â
No one even cares
Do we have a function?
Tell me is there something
Is this my assumption?
Tell me is there something
Life is nothing but consumption
Tell me is there something there! There? There!
Seems that no one even cares!
