

S.O.S.

The Suicide Machines

I take a look around I don't like what I see
A bunch of people who don't know shit about UNITY
I see right through your skin, you say you see through mine
Then please explain to me why we fight all the time

I can't take it anymore, this is bothering me
Got people killing each other
Why does this have to be?

I wish I knew, I really wish I knew
How people see there's no real difference between me and you

It's a bomb with a short fuse
And I know it seems like no use
The tension's building a reaction
This is a call to action
S.O.S. we need help
Man's inhumanity towards another man
It's man's insanity and ignorance again
And now the time has come to stop what's going on
The hatred's build up, exploding like a bomb!

It's a bomb with a short fuse
And I know it seems like no use
The tension's building a reaction
This is a call to action
S.O.S. we need help
Say bomb, bomb, bomb, bomb it's gonna pop
Say bomb, bomb, bomb, bomb it's gotta stop

It's a bomb
It's a bomb!
(Go!)

It's a bomb with a short fuse
And I know it seems like no use
The tension's building a reaction
This is a call to action
S.O.S. we need help
Drop!
